The Computer would be a group for people that have an interest in using modern technology. We would provide the Kettering Community with support, that is friendly, and with a mindset of teaching how the system works, not just how to use the system. We would have presentations pertaining to new technological advances. We would promote the use and development of computer skills. The students who already have an interest in computers will have a formal community to join if they wish. The students who have a desire to learn about computers will also have an opportunity to attend club meetings and build computer competency.

Mission Statement: The Computer Club was formed for the promotion and education of the use and development of virtual modern technology.

Constitution: The Computer Club is for the education and the promotion of computer systems.

Membership: Membership is open to all Students who are interested in learning and using computers.

Officers: There shall be a President of Computer Club which handles all official paperwork and elections will be held in the last week of each fall term. There shall also be an operations chair that will be in charge of funding, food, and other club events. There shall also be an Outreach Chair that will be in charge of public relations for events and weekly club meeting emails. Elections will be held at the same time as the Presidential elections.

Advisor: Professor Huggins has agreed to be the faculty advisor for Computer Club to provide knowledge and experience that might not be found among the students.
